

YOUR STUDIO IN A BOX

LITE

LabMU-Studio LITE is born to adapt to restricted budgets without compromising the flexibility, performance and functionalities inherited from LabMU-Studio. Ideally suited for multiuser environments such as **TRAINING, INTERNET TV PRODUCTION, COMMUNITY TV PRODUCTION**, or **PORTABLE PRODUCTION**. Ideally suited for collaborative work, allows to design and operate complete user defined production studios from a visually attractive GUI connected to a 1RU server. Design and operate right away self-designed MCR, PCR, Monitoring, Continuity and Playout Rooms, avoiding hazardous installations and cabling.
